

MB Safety® company profile

For 30 years MB Safety® has been the partner when it comes to products for professional money and value storage and fire extinguishers. MB Safety®, established in 1989, has since then developed into a leading specialist with a wide range of security products. MB Safety® stands for craftsmanship and quality with an enthusiastic, customer-friendly approach.

BURGLARY- AND FIRE PROOF SAFES

Also for service and maintenance

Burglary- and fire proof safes every version and for every application. For the professional storage of (exchange) money, documents, securities etc. Our delivery program consists of modern, certified safes in all classes with an excellent price-quality ratio. Through European certifications, our products are always accepted by your insurer.

SMART IQ KEY MANAGEMENT AND LOCKER MANAGEMENT SYSTEMS

Who took what keys and when?

Key- and locker management systems from the so-called IQ series are high-quality products based on the latest technologies. The IQ systems are immediately ready for use (plug-and-play) and very easy to use. The entire system is housed in a steel housing or safe. A PIN code can grant access, but access can also be granted through an access pass for example from your own access control system. The systems are available in various versions and can also be constructed modularly.
